STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

**GBV prevention strategies and action plans are implemented by UN, government and civil society in a coordinated manner and are informed by voices of women survivors of violence**

In line with its technical advisory support to the Department of Women Youth and Persons with Disability (DoWYPD) in South Africa through secondment to the Department, UN Women has contributed to improved coordination amongst organizations and strengthened efforts to achieve the objectives of NSP on GBVF. Grouping and mobilizing organizations implementing the NSP according to pillars with self-managed working groups planning and implementing together in a multi-sectoral collaborative now known as the End GBVF Collective has led to better synergies. The MCO has contributed to better synergy and coordination amongst UN Agencies implementing GBV programmes. Following the completion of the Comprehensive National Prevention Strategy (CNPS) which the MCO also technically and financially supported, UN Women convened UN agencies that supported the development of the CNPS to map a way forward and a common UN position to present to the Department of Women Youth and Persons with Disabilities at the close-out meeting. UNW leadership in developing a tool for agencies to indicate areas of work has helped to streamline work and strengthen coordination amongst UN agencies in GBV programming thus contributing to improve programming and less duplications amongst agencies.
