STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

Former FARC combatants in the process of reincorporation and their families have access to a comprehensive and effective reincorporation with the support of the UN Country Team in coordination with the Presidential Council for Stabilisation and Consolidation and the Agency for Reincorporation and Normalisation, in addition to the efforts of the Colombian Government (UNSDCF 1.1)

In 2022, UN Women Colombia made significant progress on outcome 1.1 (on track). Thanks to UN Women contribution in partnership with Norway and MPTF, 705 men and women ex-combatants have stronger capacities, business plans and assets for their productive initiatives, the gender approach was strengthened in the National Council for Reincorporation and a care space was finalized as one of the key strategies to incorporate gender in the reincorporation process. As a part of the strategy to support the overcoming of barriers to meaningful and empowering participation of women ex-combatants in social and economic reincorporation processes with the support of Norway, 625 men and women ex-combatants and community members, belonging to organizations of ex-combatants -have business plans, supplies, machines and tools for their productive enterprises and 80 women and men peace signatories from ASOCUNT, ASOPROPAZ and Manuelitas strengthened their productive initiatives through UN Women's responsible purchasing strategy. For instance, solar panels were installed in Pondores (La Guajira) to support a productive initiative. In coordination with the European Union, UN Women supported the production of the Technical Report on the Advances and Challenges for the implementation and mainstreaming of the Gender Approach in the Reincorporation of Women and LGBTQI persons by the Gender Group of the National Council for Reincorporation. The technical report was presented to 40 governmental institutions. With the support of UN Women, a pilot of men and women in reincorporation processes was developed and finalized. The dialogue with the Colombian Institution for Family Welfare (ICBF) to determine the functioning of the care space advanced in 2022.
