STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF: 2023

**Gender statistics, sex-disaggregated data and knowledge products are produced and used to inform policy making, advocacy and accountability for delivering results on gender equality and empowerment of women and girls in ESA region**

Women Count provided technical and financial support to Instituto Nacional de Mozambique for the publication of 11 provincial reports on the situation of women and men. These reports will be made available on the INE website, as per this example in quarter1 of 2024. These publications contain the main source of administrative data with the best regularity available in the country (annual) and first edition at provincial level that helps monitoring Government's efforts in promoting equality in Mozambique. The completion of these publications was driven by the workshop, supported by UN Women, which took place from 04th to 08th December 2023, in Ponta de Ouro. In Rwanda the Rwanda CO received financial support from the ESARO to work with the Rwanda National Institute of Statistics (NISR) to produce and publish 17 reports based on Census data. One of these reports was the monograph on gender. All of these reports can be accessed at the link below: <https://statistics.gov.rw/datasource/fifth-population-and-housing-census-2022>
