

Country-Level Data for Fiji country Outcome XM-DAC-41146-FIJ_D_3.1

OUTCOME FIJ_D_3.1 [XM-DAC-41146-FIJ_D_3.1](#)

By 2027, more people, particularly those at risk of being left behind, benefit from more equitable access to resilient, and gender-responsive, quality basic services, food security/nutrition and social protection systems. [PCF Strategic Priority 2: People]

OUTCOME DETAILS

SDG alignment

Impact areas

 Ending violence against women

Organizational outputs

 Norms, laws, policies and institutions

 Positive social norms

 Access to services, goods and resources

 Women's voice, leadership and agency

Outcome Description

[1] Prevention: Favourable social norms, attitudes and behaviours are promoted at the family, community, and societal levels to prevent VAWG. [2] Services: Women, girls and children who experience violence (including before, during and after emergencies), have access to coordinated and high quality, essential services (health, police and justice, social services) to recover from violence and perpetrators are held to account.

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2023

By 2027, more people, particularly those at risk of being left behind, benefit from more equitable access to resilient, and gender-responsive, quality basic services, food security/nutrition and social protection systems. [PCF Strategic Priority 2: People]

The outcome is still on track. Significant strides have been made in enhancing the accessibility and quality of services for women and girl survivors of GBV in the Pacific. The coordination of referral and response services for survivors of GBV has significantly improved through adherence to the Fiji National Service Delivery Protocol (SDP). The Ministry of Women with support from UN Women, facilitated localised referral pathways awareness with stakeholders from the central and western division. And currently the three out of the four divisions in Fiji (central, western, norther and eastern), have successfully implemented the SDP/GBV working group and created a localised referral pathway. Efforts to provide enhanced quality responses to survivors of violence in the Northern Division of Fiji have been particularly impactful. Twenty-five police officers underwent awareness and training sessions, resulting in improved practices within the police force. These officers, now equipped with a deeper understanding, demonstrate respect to survivors, take their cases seriously, and act swiftly to support women and girls navigating the complexities of the justice system in Fiji. The new Gender-Based Violence Counsellor Training Package for the Pacific has been agreed by the representatives from crisis centers across ten Pacific Island countries. This innovative move marks a departure from the previous manual utilized over the region for over three decades, developed by the Fiji Women's Crisis Centre. Following the agreement on the new GBV Counseling Manual, a two-week training session was conducted. Eighteen GBV counsellors from ten Pacific countries engaged in an intensive program aimed at refining their GBV counseling skills and knowledge. This effort is pivotal in ensuring that frontline responders are equipped with the latest methodologies and best practices in providing survivor-centered services. The Fiji Women's Crisis Centre and UN Women facilitated this training. Based on the progress made to date, the original strategy and ToC for this outcome is largely still applicable. However, given that a formulation of the second phase of the Pacific Partnerships is underway, it is likely that the strategy may be modified depending on the process. Concerning the National Action Plan to Prevent Violence Against Women and Girls, the transition to a new government brings about the necessity to acquaint the incoming ministers and government officials with the intricacies of the NAP. This orientation is crucial to ensure their understanding and enthusiastic engagement with the ongoing initiatives.
