STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : 2023

By 2027, people will benefit from and contribute to sustainable and inclusive growth through higher productivity, competitiveness and diversification in economic activities that create decent work, livelihoods, and income, particularly for youth and women

Fostering sustainable and inclusive growth across diverse sectors through advancement in economic participation and empowerment of women and youth in targeted regions viz. employment, entrepreneurship, education, and policy influence. In 2023, UN Women, through vital partnerships with government bodies, civil society, and the private sector, has made significant strides in promoting sustainable and inclusive growth, focusing on boosting productivity, competitiveness, and economic diversification for women and youth. Here are the key impacts: · Employment and Skills Enhancement: In Maharashtra, Odisha, and Bihar, UN Women successfully facilitated employment opportunities, including jobs, apprenticeships, and internships, for 832 women in diverse sectors such as banking, finance, textile, sales, marketing, beauty, wellness, garment production, and engineering. · Entrepreneurship Development: A total of 627 women in Bihar, Odisha, Rajasthan, and Maharashtra launched individual and group enterprises, demonstrating the effectiveness of the Second Chance Education and Women in Action projects in fostering female entrepreneurship. · Education and Training: Women and girls' enrolment in Industrial Training Institutes and Polytechnics in Koraput, Bargarh, and Gajapati – some of the most backward districts in the state of Odisha in eastern India, increased by 15% from 2021 to 2023, thanks to UN Women's mobilization efforts. · STEM Empowerment: In collaboration with the Government of Madhya Pradesh, UN Women secured funding to enhance STEM skills among 2,000 women from tribal and marginalized communities. The project, which started in December 2023, has already enrolled over 600 young women, with training and placement drives set for completion in 2024. · Handicrafts Initiative: In Maharashtra, UN Women's support enabled women in Nandurbar and Jalgaon to produce banana fibre handicrafts, earning the One

District One Product (ODOP) tag. ODOP, a Government of India initiative, provides a 35% credit-linked capital subsidy to women-run businesses. This initiative led to an order of 1,000 products worth INR 2.5 Lakh (USD \$3,300), promising a 30% profit margin, with delivery expected in February 2024. · Educational Policy Influence: UN Women played a pivotal role in the formulation of the Gender Policy of the National Institute of Open Schooling (NIOS), to address a 33% gender enrolment gap. The policy focuses on improving women's enrolment, retention, and academic performance. NIOS, with a cumulative enrolment of 4.3 million in the past five years, has a substantial impact on the education of future women learners. · Private Sector Engagement: The commitment to women's empowerment in the workplace, marketplace, and community was reinforced with 45 new private sector companies pledging their support, bringing the total number of Indian signatories to 383.
