## STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

### **Service providers are better able to prevent VAWG and deliver essential services to victims and survivors of violence**

The work under this outcome has slowed due to the delays in the adoption of the amendments to the Law on protection and safeguarding from domestic violence. The Draft Law has been suspended and returned for additional public consultations and subsequent parliamentary hearings. This delayed the approval of the Essential Service Package. This package will change in response to changes in the Draft Law, ideally such that respective amendments are integrated into SGBV services SOPs and strengthen services in a survivor-centric manner. Moreover, during the reporting period UN Women held consultations with one of the districts of Chui province to test SOPs from a survivor-centric approach perspective, based on algorithms earlier developed by an expert team. Within 7 months of 2022 - 167 cases on VAW were sent to court which is significant increase compare to 48 cases within the whole year of 2021. 449 women VAW survivors received medical support in First Aid clinics, 1397 women received medical support in hospitals, and 1901 women received medical forensic support after the registration of VAW cases. In 2022, 25 representatives: Ombudsperson on Children's rights under the office of the President of Kyrgyz Republic, Deputy Plenipotentiary Representatives of the President of the Kyrgyz Republic in the regions, vice-mayors of Bishkek and Osh cities on social issues, representatives of ministries and crisis centers in the regions learned to apply innovative approaches to bring both government and CSO actors to discuss and understand the complexity of sexual and gender-based violence against girls (according to the statistics for 2022 there is observed growing tendency of violence against girls and minors) to come to a shared understanding of entry points for prevention and response. Moreover, they discussed the possibility of uniting efforts to develop a roadmap for the prevention and response to violence against girls, linked to the National Strategy and Action Plan to achieve gender equality in the Kyrgyz Republic. UN Women facilitated the sessions by applying innovative tools with a specific focus on survivor/human centric approach.
