STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF: **2023**

By 2024, women, girls, men and boys in Liberia experience more sustained peace, inclusive and sustainable growth and development through strengthened formal and informal institutions providing access to effective and equitable justice and security services; promoting and protecting human rights; and strengthening social cohesion and reconciliation.

In 2023, the Government of Liberia continued its efforts towards the achievement of a gender-sensitive service delivery including the provision of equitable and effective justice and security services. As a result, a Gender Policy and a five-year Implementation Plan for the Bureau of Corrections and Rehabilitation (BCR) at the Ministry of Justice was developed. This policy was validated by a wide range of stakeholders including Civil Society, women's rights advocates, and experts from the Ministry of Gender Children, and Social Protection and provides the framework for mainstreaming gender in the BCR. This was done with the technical and financial support of UN Women. The High Command of the Armed Forces of Liberia has revoked its policy that barred unmarried female soldiers from getting pregnant. This action is a result of continuous advocacy and engagement of the Gender and Social Inclusion Department (GSID) of the force relying on the Gender Policy as a reference. This latest move demonstrates the enhanced capacity of the Department to ensure full implementation of the policy. Meanwhile, the GSID continues to roll out awareness sessions amongst the ranks and files of the Force on the procedures for reporting harassment.
