	2025 (Target)	45	-

INDICATOR STATEMENT	YEAR	BMTS	REPORTED RESULT
Extent of bias in gender equality attitudes and/or gender social norms among individuals (CO)	(Baseline)	-	N/A
	2022 (Milestone)	-	8 percentage points increase in positive attitudes, from 71.9 per cent to 88.7
	2023 (Milestone)	-	na
	2024 (Milestone)	-	
	2025 (Target)	Less than 70% of the targeted population	-

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2023**

More women access equitable employment opportunities and services, increasing the rate of women’s participation in the workforce in Arab States, including the most marginalized.

Unavailability of updated data on bias in gender equality attitudes, percent of women's participation in the region's workforce and percent of WEP signatories with female top managers makes it difficult to track progress. The latest data on labour force participation suggests some recovery in the rate of women participation but the rate remains below the pre-COVID-19 level.
