UN Women Kenya Outcome 4: The UN system and stakeholders in Kenya engage in effective coordination to advance GEWE.

OUTCOME DETAILS

SDG alignment

Outcome Description

Impact areas

Governance and participation in public life

Organizational outputs

UN system coordination

Policy Marker

GENDER EQUALITY

Humanitarian Scope

No

UN System Function

Advocacy, communications and social mobilization

Capacity development and technical assistance

Integrated policy advice and thought leadership

Intergovernmental Normative Support

Support functions

UN system coordination (discontinued)

RESOURCES

\$221.37 K

Planned Budget

\$0.00

Actual Budget

PLANNED BUDGET

INDICATOR STATEMENT	YEAR	BMTS	REPORTED RESULT
Percentage of UN Joint-Programmes with a focus on gender equality in which UN-Women participates as a Participating United Nations Organization (derived from QCPR indicator 1.4.17) (CO, RO)	2022 (Baseline)	83.3	N/A
	2023 (Milestone)	58.8	68.4
	2024 (Milestone)	58.8	-
	2025 (Milestone)	58.8	-
	2026 (Target)	58.8	-

STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2023**

UN Women Kenya Outcome 4: The UN system and stakeholders in Kenya engage in effective coordination to advance GEWE.

The GEWE coordination in Kenya was in 2023 greatly enhanced, both within the UN system and in the county at large. There are now effectively coordinated and well-structured GEWE mechanism in place- bringing together the UN, government, Civil society, Women Rights Organisations (WROs) and Development Partners. Drawing on the strong commitment from the Government of Kenya, the Resident Coordinator and UNCT at large, UN Women Kenya leveraged on its coordination mandate to strengthen coordination on GEWE both within the UN as well as with external stakeholders. There was remarkable gender-mainstreaming results achieved within UN Kenya in 2023 with UN Women's efforts. The 2023 annual Gender Scorecard report assessed 4 out of 5 indicators as exceeding minimum requirements and one meeting the minimum requirement. This put UNCT Kenya on the global map as it exceeded the QCPR target of 60% (up from 33.3% in 2022 to 66.7% in 2023). GEWE was also incorporated across the UNSDCF 2023-2026, resulting in a solid foundation for a system-wide cooperation framework that mainstreams gender across all interventions and joint programmes (JPs). The Gender Theme Group (GTG) was reinstated and capacitated, which will help hold agencies accountable for the gender commitments made. Through engagement in various fora (Outcome groups, the Monitoring & Evaluation group and GTG), UN Women was also to successfully advocate for and position gender equality at the UNCT level and enable availability of sex-disaggregated data, including by collaborating with the Kenya National Bureau of Statistics. In addition to supporting their own agencies in the development of interventions and monitoring/reporting on gender results, GTG helped develop a gender checklist that has been used to ensure that the creation process of JPs is gender responsive. Out of 19 JPs developed in 2023, 13 are gender responsive. Leveraging on its coordination mandate and the role as secretariat to several of the GEWE groups, UN Women helped create synergies between the various groups and bring GEWE stakeholders together. The structured engagement led in 2023 to greatly enhanced advocacy and well-coordinated and impactful organization of events such as the International Women's Day and 16 Days of Activism. Closer ties were also built between the Development Partners Gender Group (DPGG) and the National Gender Sector working Group (co-chaired by the CS), with frequent

participation of the Permanent Secretary and other key government stakeholders, pushing forward efforts on for example the two thirds gender principle. As a member in the Multi-Sectorial Working Group, UN Women also supported and advocated for implementation of the two-thirds gender principle as per the 2010 Constitution. WROs were furthermore able to submit a memorandum on their views on the two thirds principle to the National Dialogue Committee , and together with the African Women Leaders Network (AWLN), UN Women helped host women experts during the climate summit to discuss gender equality in climate change mitigation . UN Women contributed to the results above by providing secretarial services to the GTG and the DPGG, as well as technical and financial support. By actively participating in the National Gender Sector Working Group UN Women contributed to the formulation and implementation of gender-responsive policies and initiatives at the national level. UN Women also provided technical support to the Sustainable Development Goals platform, emphasizing gender mainstreaming in alignment with SDG 5. Despite the progress made, there continues to be gaps about gender capacity within UN agencies and continued accountability for agencies to develop gender-responsive programmes and report on the indicators under their leadership. Having commitment and engagement by the RC and UNCT helped ensure that GEWE has been prioritized within the UN system. UN Women will therefore continue to undertake a holistic approach where further linkages and synergies are sought, and capacity is built.
