STRATEGIC NOTE OUTCOME PROGRESS NOTE

SHOWING DATA OF : **2022**

Local Govts and market management are gender-responsive and accountable to women market vendor needs

The capacity and commitment of Solomon Islands partners to ensure safe and secure market spaces have continued to grow. In 2022, local government bodies, namely the Malaiata Provincial Government, the Western Provincial Government, and the Honiara City Council that are overseeing the Auki Market, Gizo Market, the Honiara City Market, and the Munda Markets, worked with UN Women and other partners to strengthen the legal landscape for marketplaces, through the development of market public ordinances. A feature of the ordinances is the promotion of gender equity in market management and market supervisory roles. In addition, the four markets, namely the Auki Market, Gizo Market, the Honiara City Market, and the Munda Markets have developed their respective Market Disaster Preparedness Plans, which are gender responsive and protection inclusive – the development of which also led by the Malaiata Provincial Government, the Western Provincial Government, and the Honiara City Council in partnership with the Solomon Islands National Disaster Management office. UN Women provided technical support and guidance for the development of the ordinances and plans.
